Subject: [cabfpub] Two amendments to Ballot 190

The proposer and endorsers are making two minor amendments to Ballot 190 as follows.

1) In BR 3.2.2.4.6 "Agreed-Upon Change to Website", the current draft Version 8 still has the typo "Request Value" that crept in sometime around BR 1.4. It should be "Random Value". **Accordingly, BR 3.2.2.4.6 in Ballot 190 is changed to read as follows:**

3.2.2.4.6 Agreed-Upon Change to Website

Confirming the Applicant's control over the FQDN by confirming one of the following under the "/.well-known/pki-validation" directory, or another path registered with IANA for the purpose of Domain Validation, on the Authorization Domain Name that is accessible by the CA via HTTP/HTTPS over an Authorized Port:

1. The presence of Required Website Content contained in the content of a file. The entire Required Website Content MUST NOT appear in the request used to retrieve the file or web page, or
2. The presence of the Request Token or ~~Request~~ **Random** Value contained in the content of a file where the Request Token or Random Value MUST NOT appear in the request.

2) In Version 8 of BR 3.2.2.4.7, "DNS Change", the current language says:

"Confirming the Applicant's control over the FQDN by confirming the presence of a Random Value or Request Token for either in a DNS CNAME, TXT or CAA record for either 1) an Authorization Domain Name; or 2) an Authorization Domain Name that is prefixed with a label that begins with an underscore character."

Note that "for either" appears twice in the sentence, and we think the first occurrence should be deleted. **Accordingly, BR 3.2.2.4.7 in Ballot 190 is changed to read as follows:**

3.2.2.4.7 DNS Change

Confirming the Applicant's control over the FQDN by confirming the presence of a Random Value or Request Token ~~for either~~ in a DNS CNAME, TXT or CAA record for either 1) an Authorization Domain Name; or 2) an Authorization Domain Name that is prefixed with a label that begins with an underscore character.

Voting on Ballot 190 will begin tomorrow, and the text has been changed as shown above.
